"That's the trouble with the city engineer's office; they employ a \$150 clerk to do a \$10 clerk's Job," declared Mr. A. Bierne Blair at the meeting of the Committee on Ordinances, Charter and Reforms last night.

"They have six high salaried officers there to do the work, and they do it like children. Why, they can't creet a \$10,000 school building without having to \$100 outside and employ an architect.

The statement was made during a warm discussion of the report of the subcommittee on the establishment of the office of building inspector, to which Mr. Blair is opposed. Mr. Blair made several virile arguments, and was replied to by Mr. Jacob Uminuf, who urged the necessity of such an office as the ordinance proposed to establish. On motion of Mr. M. Phil Seny it was voted to lay the proposed ordinance o nihe table and to furnish copies to the members of the committee for study and examination.

The committee came to order at \$0 clock with Chairman John B. Minor presiding. After entertaining a motion regarding the obstruction of sidewalks, it was moved that the committee hear the report of the special Health Investigation Committee, of which Dr. Ennion G. Williams is chairman.

This met with opposition and Mr. W. L. White spoke against hearing the report of the committee at the meeting. The motion was finally adopted to consider this report Tuesday night, April 2ith, and the boar dof health is to be notified to make any replies they desire to the report of the special Health Investigation Committee at that time.

## BOY SPIRITED AWAY PRODABLY BY FATHER

(By Associated Press.)
CHICAGO, April 20.—Anson Head Richards, three years of age, a son of D. William Richards, of New York, was abducted here to-day by three men, who carried him away in an automobile, and no trace of him has yet been found.
The mother of the child is living at the home of her sister, Mrs. C. F. Hunting, No. 2661 North Forty-fourth Avenue. The boy to-day was playing on the lawn in front of the house, when two men approached him. One of them lifted him up, and the chauffour, who had stopped his machine some distance away, at once started toward them. The boy was hastily placed inside, the men climbed in after him, and the machine went flying north at a furious rate.
A number of persons who witnessed the abduction gave chase, but the speed of the automobile was so great that they were distanced in a few minutes.
Members of the family believe that the boy was carried away by his father. Mrs. Richards to-night said that some time ago she applied for a divorce in New York. The couple had been separated for two years.

ing Given—Good Crowds.

The floral carnival at Masonic Teannie is amounting to a decided success, especially the entertainments which are being given in the afternoon and evening. Last night a freak show was presented, and was decidedly entertaining in all particulars. Everything was there from the strong man to the wild Indians. A large crowd was in attendance, and the performers were warmly applauded. The best part of the programme was the Gold Dust Twins, whose comic poses brought forth roars of laughter. The entire programme was worthy of much praise.

This afternoon a musical and elocutional programme will be given together with the singing of the anvil chorus. There will also be other attractions; and in the evening another programme will be presented, preceded by a Jan drill of 15 girls from the Woman's Collwas.

(By Associated Press.)

NEW YORK, April 29.—More than \$1,000,000 was subscribed in this city to-day toward the relief of the sufferers in San Francisco and other California cities affected by the recent disaster. This was the first day of a partly organized effort at securing funds. The Mayor's committee of citizens to-night announced a total of subscriptions received of \$137,013.

Of this sum, \$25,000 came anonymously from "a friend of humanity."

The Chamber of Commerce announced that it had received \$333,320 to-day, Including a gfit of \$100,000 from Andrew Carnegle. William Waldorf Astor cabled a subscription of \$100,000.

The United States Steel corporation voted \$160,000 to be expended in relief work. The Standard Oil Company directed that a like sum be spent. John D. Rockofeller yesterday personally subscribed \$100,000. The Merchants Association of New York received \$17,200 as a result of its first day's efforts, and the State Society of the National Red Cross received \$45,105. Other organizations and several newspapers received contributions. There was no way of reckoning to-night the exact sum subscribed here. Conservative estimates indicate that the total of contributions from this city will not be less than \$3,000,000. Funds raised by the Mayor's committee will be sent direct.

Mr. Barney Gilmore, the leading man in "A Rocky Road to Dublin," which is playing at the Bljou this week, has suggested a unique plan for raising money for the sufferers in San Francisco.

gested a unique plan for training modey for the sufferers in San Francisco.

Mr. Glimore will take the matter in hand personally and do all in his power to contribute to the fund.

His proposition, briefly set out, is that he will be at Seventh and Broad Streets in his cart from 5:30 to 6 P. M. to-day, after the matinee. Mr. Glimore wishes to have Mayor McCarthy with him, and will turn all the money he collects over to His Honor.

Mr. Glimore will start out by purchasing copies of the daily papers of to-day, He will take one of each and will pay 8 for the three. He will then play newsboy and offer for sale to the public a copy of to-day's Times-Dispatch, Journal and News Leader at twenty-five cents for the three. Theatrical people are usually responsive to the cry of distress, but the suggestion of Mr. Glimore has been widely commended, and he will no doubt he liberally patronized by those who desire to help the sufferers in the Golden Gate ofty.

### SCIENTIFIC RECORD OF EARTHQUAKE

OAKLAND, CAL., April 20.—A. O. Leuschner, director of the students' observatory of the University of Callfornia, gave yesterday this record of the earthquake:

ifornia, gave yesterday this record of the earthquake:

"The principal part of the earthquake came in two sections, the first series of vibrations issting for about forty seconds. The vibrations diminished gradually during the following ten seconds, and then occurred with renewed vigor for about twenty-five seconds more. But even at noon the disturbance has not as yet subsided, as slight shocks are recorded at frequent intervals on the selsmograph. The motion was from the south-southeast to north-northwest. The remarkable feature of this earthquake, aside from its intensity, was its rotary motion. As seen from the print, the sum total of all displacements represents a very regular ellipse, and some of the lines representing the earth's motion can be traced along the whole circumference.

"The result of the observation indicates that our heaviest shocks are in the direction south-south-seast to north-northwest. In that respect the records of the three heaviest earthquakes agree entirely. But they have several other features in common. One of these is that while the displacements are very large, the vibration period is comparatively slow, amounting to about one second in the last two big earthquakes."

# DANGER OF FISTICUFF ON FLOOR OF CONGRESS

Violent Altercation Between General Grosvenor, of Ohio, and Mr. Clark, of Florida.

Mr. Clark, of Florida.

(By Associated Press.)

WASHINGTON, April 20.—Although the Congressional Record will not show any difference of opinion between General Grosvenor, of Chio, and Frank Clark, of Florida, the fact is that a serious altercation between these two gentlemen was avoided in the House to-day only by the masteriy diplomacy of the minority leader, Mr. Williams, of Mississippi, who asked unanimous consent that the language of the gentlemen be stricken from the record. There was a lirect of personal violence on the part of Mr. Clark against the congressman from Ohlo, growing out of a statement on the part of the latter that Mr. Clark had "purposely misrepresented him." Excitement ran high for a short lime over the unparliamentary language used by the gentlemen growing out of a desire on the part of Mr. Clark to have a congressional investigation of the St. Flizabeth Insane Asylum. The Speaker loudly called the gentlemen to order, and Mr. Williams restored outward peace by having the objectionable language eliminated.

Mr. La Folette to-day continued, but did not conclude his speech in the Senato on the question of railroad rate legislation.
